

# Extraordinary care, just for kids!

**Children's Hospital**  
New Orleans  
LCMC Health

**At Children's Hospital New Orleans, our promise is to shape a better future for kids. For more than 65 years, we've delivered expert healthcare for children across our state and region. Today, we provide unmatched pediatric expertise wrapped in a whole lot of love.**

Our community can count on the extraordinary care provided by the pediatric-trained experts at Children's Hospital, from the most complex pediatric procedures, to the everyday health of children and adolescents. From our main campus in Uptown New Orleans, to satellite locations in Alexandria, Baton Rouge, Covington, Lafayette, and Metairie, and 13 pediatric primary care locations, we're working to ensure that families across our state and region have access to specialized pediatric healthcare close to home. Each year, Children's Hospital cares for children from all 64 parishes in Louisiana, from across the Gulf South, and beyond.

Children's Hospital is proud to be the only pediatric facility in the state of Louisiana to incorporate two academic pediatric medical programs under one roof. Through partnerships with LSU Health New Orleans and Tulane University School of Medicine, the vibrant academic medical community at Children's Hospital provides unparalleled opportunities for educational enhancement, innovation, and improved access to high quality pediatric healthcare.

## Our history and growth

**1955**

Crippled Children's Hospital founded in New Orleans as a 53-bed rehabilitation facility for children during the polio epidemic.

**2009**

LCMC Health is formed from Children's Hospital, making it one of the only health systems in the country founded by a free-standing children's hospital. LCMC Health partners with Touro Infirmary.

**2021**

Children's Hospital completes a \$300 million campus expansion, transforming pediatric healthcare for children across Louisiana and the Gulf South.

**Lou Fragoso**  
President &  
Chief Executive Officer  
Children's Hospital  
New Orleans

“Children's Hospital New Orleans is dedicated to creating a healthier tomorrow for children across Louisiana, the Gulf South, and beyond in a healing, family-centered environment that allows kids to be kids. We are innovating healthcare for kids now and into the future, creating one high standard of care that is delivered by our extraordinary staff and providers.”

## Our locations

Outpatient appointments with pediatric specialists are offered on Children’s Hospital’s main campus, as well as our satellite locations throughout Louisiana and Mississippi. Children’s Hospital offers specialty care at clinics in Metairie, on the Northshore, in Baton Rouge, Lafayette, Alexandria and Diamondhead, MS.

In addition to these satellite locations, our specialists see patients in Houma, Lake Charles, Monroe, Slidell, and Thibodaux.

## Pediatric Primary Care

On healthy days and sick days—and for any health needs in between—the pediatricians at Children’s Hospital are here for families across the Greater New Orleans area. With 12 locations throughout Southeast Louisiana, our pediatricians are dedicated to caring for children from birth through adolescence, serving more than 140,000 children every year.

## Building our future

Children’s Hospital has made a significant investment in the future of pediatric healthcare with a \$300 million transformation project that reached completion in November 2021, expanding the hospital’s footprint by 235,000 square feet. This transformation allows us to deliver the most advanced care possible, with innovative approaches to care delivery, academics, and unmatched patient and family experience. The project included a new medical tower with expanded cancer, emergency, cardiac intensive care, and surgical centers, along with a free-standing behavioral health center. Our expansion was designed with the patient and family at the center, with a new outpatient pavilion, 600-car parking garage and skybridge, family housing, improved dining, and a dedicated child life center.

## Community support

Children’s Hospital understands that transforming care for children happens beyond the walls of our hospital and clinics. Each year, we invest over \$15 million in community programs, including:

- The Audrey Hepburn CARE Center
- Limited Intervention Psychology Program
- Autism Center
- The Parenting Center
- Ventilator-Assisted Care Program
- Cochlear Implant Program
- Immunization Program
- Miracle League
- Hogs for the Cause Family Center
- ThriveKids Student Wellness Project
